GOAL DATES

Nov 5 : NEW Banner 9
Registration

" Communication works for those who work at it. "
~ George Bernard Shaw

BANNER 9 SIS

The NEW Student Information System (SIS) went LIVE on October 15th. On Oct 30th we made tweaks on the feedback we received and redeployed the SIS. We are currently taking requests for training on-demand. Email pmo-it@dtcc.edu to make a request.

BANNER 9 PHASE 2

The Banner 9 project will be moving into its second phase soon. We are researching the viability of rolling out the second phase in February of 2019. This phase includes integrating Banner and Degree Works "Plans".

GRANT MANAGEMENT

The Institutional Effectiveness and Development division needs to streamline and digitize the grant application, approval and management process. We are in the beginning phase of this project, documenting current processes and legal requirements. With a complete picture, a work flow will be drawn up and approved before determining what technology is necessary to meet the College's needs.

ADOBE CLOUD LICENSING

Until software procedures are developed, please ask users to submit Adobe Document Cloud (DC) and Adobe Creative Cloud (CC) requests through the support page or this direct link: https://support.dtcc.edu/software

IN THE PIPELINE

New portal : Mobile app upgrade : Grant Management

pm tips & tricks

Communication & Knowledge Sharing

- Frequently send project communication through any format available to you -email, announcements, web pages, meetings, and training sessions.

- Consistently share project documentation & past communication through file share folders, Google Team Drives , or Share Point
